

## Mental addition (with regrouping): Add 4 numbers (missing addend)

Grade 2

Name: \_\_\_\_\_

Find the missing number to complete the equation.

Example:  $5 + 3 + ? + 2 = 12$ . Answer: 2

(1)  $9 + 7 + \underline{\hspace{2cm}} + 6 = 28$

(2)  $8 + \underline{\hspace{2cm}} + 9 + 5 = 31$

(3)  $7 + 6 + 8 + \underline{\hspace{2cm}} = 29$

(4)  $\underline{\hspace{2cm}} + 9 + 7 + 4 = 27$

(5)  $6 + 8 + \underline{\hspace{2cm}} + 9 = 32$

(6)  $9 + \underline{\hspace{2cm}} + 5 + 8 = 30$

(7)  $7 + 9 + 6 + \underline{\hspace{2cm}} = 30$

(8)  $\underline{\hspace{2cm}} + 8 + 7 + 9 = 33$

(9)  $8 + 6 + \underline{\hspace{2cm}} + 7 = 29$

(10)  $9 + \underline{\hspace{2cm}} + 8 + 6 = 31$

(11)  $7 + 8 + 5 + \underline{\hspace{2cm}} = 28$

(12)  $\underline{\hspace{2cm}} + 7 + 9 + 8 = 32$

(13)  $6 + 9 + \underline{\hspace{2cm}} + 8 = 31$

(14)  $8 + \underline{\hspace{2cm}} + 7 + 9 = 32$

(15)  $9 + 6 + 7 + \underline{\hspace{2cm}} = 30$

(16)  $\underline{\hspace{2cm}} + 8 + 9 + 5 = 29$

(17)  $7 + 9 + \underline{\hspace{2cm}} + 8 = 33$

(18)  $8 + \underline{\hspace{2cm}} + 6 + 9 = 30$

(19)  $9 + 7 + 8 + \underline{\hspace{2cm}} = 32$

(20)  $\underline{\hspace{2cm}} + 6 + 8 + 9 = 31$
