

## Find the Missing Side from Area

Grade 2

Name: \_\_\_\_\_

Use area and a given side to find the missing side.

Tip: If  $\text{Area} = L \times W$  and  $L$  is given, then  $W = \text{Area} \div L$  (and the other way too).

- (1) The area of this rectangle is  $40 \text{ cm}^2$ . What is the missing side length?

- (2) The area of this rectangle is  $54 \text{ cm}^2$ . What is the missing side length?

(3) The area is  $40 \text{ cm}^2$ . What is the length of the missing side?

(4) This rectangle has an area of  $40 \text{ cm}^2$ . Find the missing side length.

(5) This rectangle has an area of  $72 \text{ cm}^2$ . Find the missing side length.

(6) This rectangle has an area of  $63 \text{ cm}^2$ . Find the missing side length.

(7) This rectangle has an area of  $35 \text{ cm}^2$ . Find the missing side length.

(8) This rectangle has an area of  $35 \text{ cm}^2$ . Find the missing side length.
