

## Missing Factors: Tables 2-10

Grade 2

Name: \_\_\_\_\_

Find the missing number in each multiplication sentence.

**Example:**  $8 \times \underline{\quad} = 56 \rightarrow$  Think: 8 times what equals 56? Answer: 7

(1)  $\underline{\quad} \times 1 = 2$

(2)  $\underline{\quad} \times 5 = 30$

(3)  $\underline{\quad} \times 3 = 6$

(4)  $\underline{\quad} \times 6 = 60$

(5)  $\underline{\quad} \times 1 = 4$

(6)  $\underline{\quad} \times 1 = 3$

(7)  $\underline{\quad} \times 6 = 36$

(8)  $\underline{\quad} \times 2 = 8$

(9)  $\underline{\quad} \times 1 = 6$

(10)  $\underline{\quad} \times 1 = 8$

(11)  $\underline{\quad} \times 3 = 9$

(12)  $\underline{\quad} \times 2 = 6$

(13)  $\underline{\quad} \times 5 = 10$

(14)  $\underline{\quad} \times 5 = 20$

(15)  $\underline{\quad} \times 5 = 45$

(16)  $\underline{\quad} \times 6 = 24$

(17)  $\underline{\quad} \times 1 = 9$

(18)  $\underline{\quad} \times 6 = 30$

(19)  $\underline{\quad} \times 5 = 15$

(20)  $\underline{\quad} \times 3 = 15$
