

## Basic properties of 2-D shapes: Spatial Reasoning: Positions of Shapes

Grade 2

Name: \_\_\_\_\_

Identify shape positions in the picture.

Shapes may be rotated or colored differently.

(1) Which shape is to the right of the triangle?

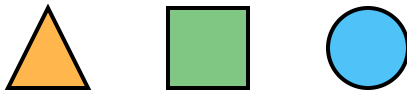

(A) Square (B) Triangle (C) Circle

(2) Which shape is below the rectangle?

(A) Rectangle (B) Circle (C) Triangle

(3) Which shape is between the triangle and the circle?

(A) Triangle (B) Square (C) Circle

(4) Which shape is the rightmost in the row?

(A) Rectangle (B) Triangle (C) Circle

(5) Which shape is directly above the circle?

- (A) Triangle (B) Square (C) Circle

(6) What is the third shape from the left?

- (A) Circle (B) Rectangle (C) Triangle  
(D) Square
