

Missing Factors: Tables 2-10

Grade 3

Name: _____

Find the missing number in each multiplication sentence.

Example: $8 \times \underline{\quad} = 56 \rightarrow$ Think: 8 times what equals 56? Answer: 7

(1) $\underline{\quad} \times 2 = 8$

(2) $\underline{\quad} \times 1 = 10$

(3) $\underline{\quad} \times 8 = 56$

(4) $\underline{\quad} \times 2 = 12$

(5) $\underline{\quad} \times 6 = 24$

(6) $\underline{\quad} \times 10 = 20$

(7) $\underline{\quad} \times 4 = 16$

(8) $\underline{\quad} \times 6 = 18$

(9) $\underline{\quad} \times 2 = 6$

(10) $\underline{\quad} \times 9 = 81$

(11) $\underline{\quad} \times 8 = 64$

(12) $\underline{\quad} \times 1 = 8$

(13) $\underline{\quad} \times 6 = 12$

(14) $\underline{\quad} \times 8 = 24$

(15) $\underline{\quad} \times 9 = 27$

(16) $\underline{\quad} \times 7 = 70$

(17) $\underline{\quad} \times 5 = 15$

(18) $\underline{\quad} \times 5 = 50$

(19) $\underline{\quad} \times 2 = 4$

(20) $\underline{\quad} \times 10 = 40$
