

Multiply & Divide by 5: Missing Factor

Grade 3

Name: _____

Find the missing factor.

Example: $5 \times \underline{\quad} = 15$ Answer: 3

(1) $\underline{\quad} \times 6 = 30$

(2) $\underline{\quad} \times 4 = 20$

(3) $\underline{\quad} \times 3 = 15$

(4) $\underline{\quad} \times 7 = 35$

(5) $\underline{\quad} \times 2 = 10$

(6) $\underline{\quad} \times 8 = 40$

(7) $\underline{\quad} \times 10 = 50$

(8) $\underline{\quad} \times 9 = 45$

(9) $\underline{\quad} \times 5 = 25$

(10) $\underline{\quad} \times 1 = 5$

(11) $\underline{\quad} \times 2 = 10$

(12) $\underline{\quad} \times 4 = 20$

(13) $\underline{\quad} \times 5 = 25$

(14) $\underline{\quad} \times 10 = 50$

(15) $\underline{\quad} \times 3 = 15$

(16) $\underline{\quad} \times 8 = 40$

(17) $\underline{\quad} \times 9 = 45$

(18) $\underline{\quad} \times 7 = 35$

(19) $\underline{\quad} \times 6 = 30$

(20) $\underline{\quad} \times 1 = 5$
