

# Reading Bar Graphs

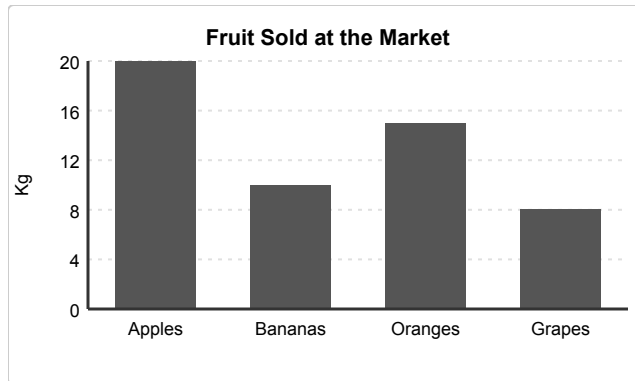

Grade 3

Name: \_\_\_\_\_

Use the bar graph to answer the questions.

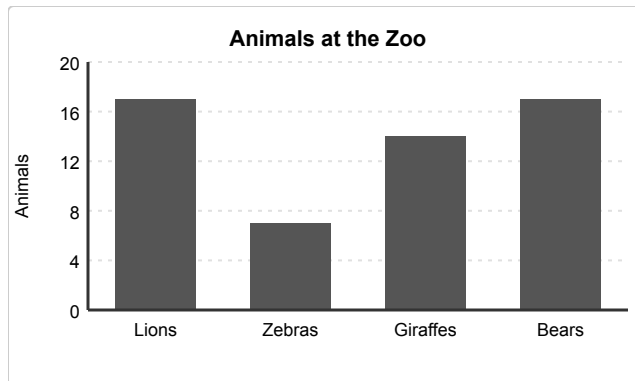

A bar graph uses bars to show data. The height of the bar tells you the number.

(1) According to the graph, how many kg does "Apples" have?

- (A) 18 (B) 19 (C) 20 (D) 21

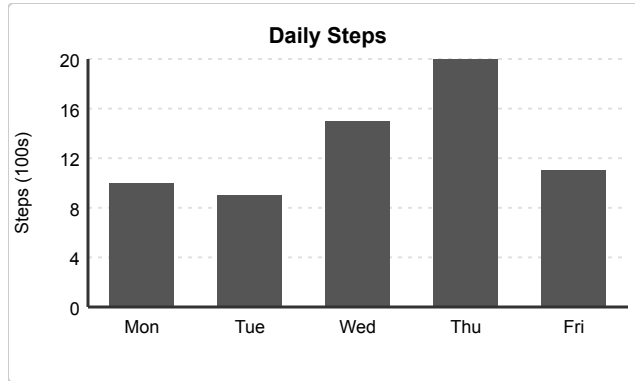

(2) According to the graph, how many animals does "Zebras" have?

- (A) 5 (B) 6 (C) 7 (D) 8

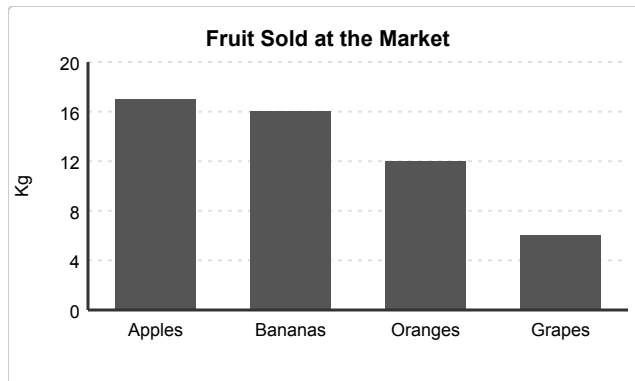

(3) How many more steps (100s) does the highest bar have than the lowest?

- (A) 9 (B) 10 (C) 11 (D) 12

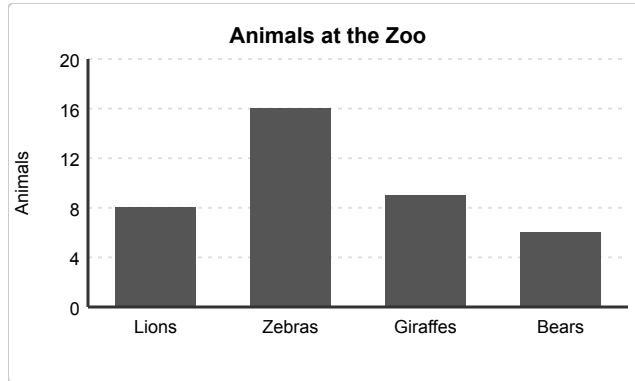

(4) What is the highest value shown in the graph?

- (A) 15 (B) 16 (C) 17 (D) 18

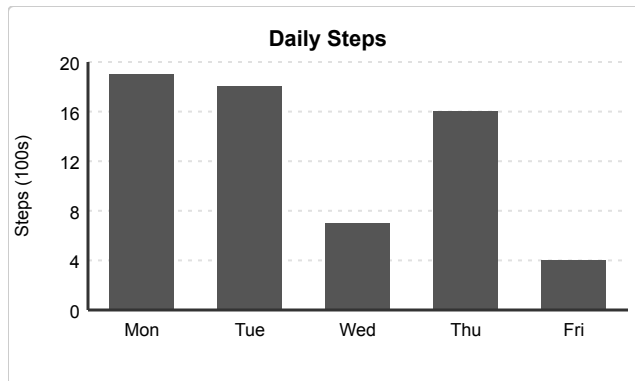

(5) What is the total of all animals shown?

- (A) 37 (B) 38 (C) 39 (D) 40

(6) How many steps (100s) do "Wed" and "Thu" have combined?

- (A) 21 (B) 22 (C) 23 (D) 24
