

## Dividing into Equal Groups: Finding Number of Groups – Grade 4 (Medium) – Set 1

Grade 4

Name: \_\_\_\_\_

Divide objects into groups. Count the groups.

**Example:** Count the objects. Given the size of each group, find how many groups are needed.

- (1) There are 21 flowers. You put 3 flowers in each vase. How many vases do you need?

- \_\_\_\_\_
- (2) There are 16 books. Each shelf holds 4 books. How many shelves are needed?

- \_\_\_\_\_
- (3) There are 36 cookies. You put 6 cookies on each plate. How many plates do you need?

- \_\_\_\_\_
- (4) There are 40 pencils. Each box holds 8 pencils. How many boxes are needed?

(5) There are 25 students. Each team has 5 students. How many teams can be formed?

---
