

Division: Introduction to Long Division (1-digit quotients)

Grade 4

Name: _____

Solve each long division problem. Show work.

Example:
$$\begin{array}{r} 4 \\ 2 \overline{) 8} \\ \underline{- 8} \\ 0 \end{array}$$

(1)
$$8 \overline{) 553}$$

(2)
$$2 \overline{) 887}$$

(3)
$$4 \overline{) 957}$$

(4)
$$6 \overline{) 155}$$

(5)
$$8 \overline{) 373}$$

(6)
$$2 \overline{) 831}$$

(7)
$$4 \overline{) 365}$$

(8)
$$6 \overline{) 747}$$
