

Mental Division: Missing Dividend or Divisor

Grade 4

Name: _____

Solve for the unknown number.

Use inverse facts to find the missing number. Example: $__ \div 7 = 8 \rightarrow 56 \div 7 = 8$; $56 \div __ = 8 \rightarrow 56 \div 7 = 8$.

Example: $__ \div 7 = 8 \rightarrow 56$ | $56 \div __ = 8 \rightarrow 7$ | $__ \div 9 = 11 \rightarrow 99$

(1) $__ \div 7 = 12$

(2) $90 \div __ = 6$

(3) $__ \div 4 = 25$

(4) $65 \div __ = 5$

(5) $__ \div 16 = 8$

(6) $140 \div __ = 7$

(7) $__ \div 11 = 12$

(8) $135 \div __ = 15$

(9) $__ \div 14 = 10$

(10) $90 \div __ = 5$

(11) $__ \div 25 = 3$

(12) $144 \div __ = 12$

(13) $__ \div 6 = 18$

(14) $140 \div __ = 20$

(15) $__ \div 8 = 17$

(16) $150 \div __ = 10$

(17) $__ \div 21 = 4$

(18) $57 \div __ = 3$
