

Division Word Problems: Multiplication and Division Word Problems: Equal Groups (No Remainders)

Grade 4

Name: _____

Solve each word problem.

Think about equal groups or arrays. Write a multiplication or division equation to solve.

Example: Example: There are 5 plates with 4 cookies on each plate. $5 \times 4 = 20$, so there are 20 cookies in all.

(1) A librarian arranges 8 shelves with 9 books on each shelf. How many books are there in total? _____
