

Multiplication Word Problems: Mixed Review

Grade 4

Name: _____

Solve each word problem using multiplication.

Example: Various contexts: money, animals, sports, food, school, and more!

(1) A library received 23 new boxes of books. Each box contains 125 books. If 35 books were damaged, how many good books are there? 📖

(2) A factory produces 158 toys every hour. If they work for 15 hours and 78 toys are found to be defective, how many good toys are produced? 🧸

(3) Sarah bought 18 shirts, each costing \$27. She used a coupon for \$50 off her total purchase. How much did she pay? 🧥

(4) A farmer has 34 pens, and each pen has 16 chickens. If he sold 115 chickens, how many chickens are left? 🐔

(5) A car travels 48 kilometers each hour. If it travels for 19 hours and has already covered 75 kilometers of its journey, how many more kilometers does it need to travel? 🚗

(6) There are 29 classrooms in a school, and each classroom has 24 students. If 67 students were absent on Monday, how many students were present? 🏫
