

# Reading Bar Graphs

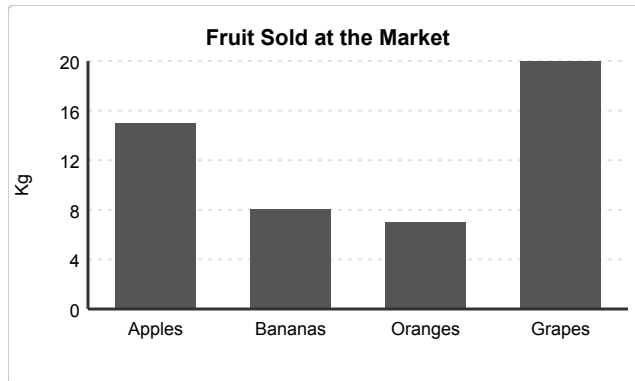

Grade 4

Name: \_\_\_\_\_

Use the bar graph to answer the questions.

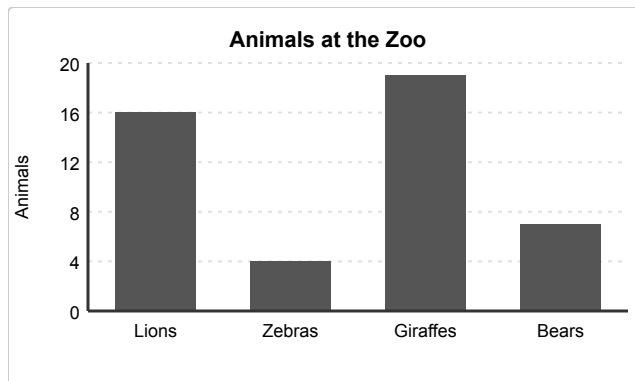

A bar graph uses bars to show data. The height of the bar tells you the number.

(1) According to the graph, how many kg does "Apples" have?

- (A) 13 (B) 14 (C) 15 (D) 16

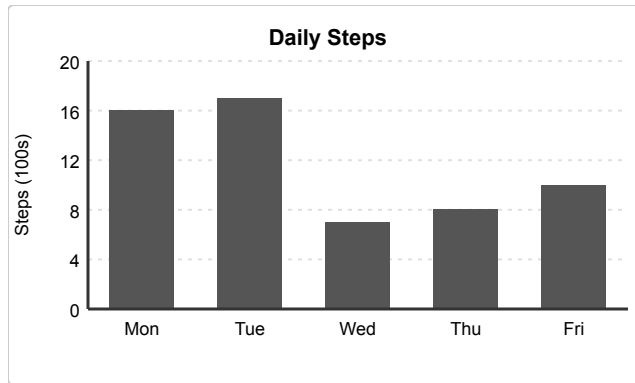

(2) According to the graph, how many animals does "Zebras" have?

- (A) 2 (B) 3 (C) 4 (D) 5

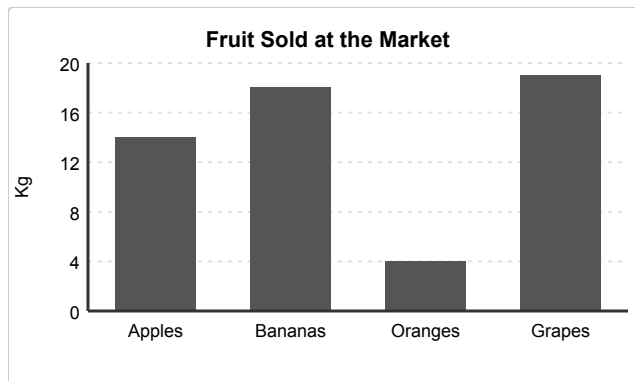

(3) How many more steps (100s) does the highest bar have than the lowest?

- (A) 8 (B) 9 (C) 10 (D) 11

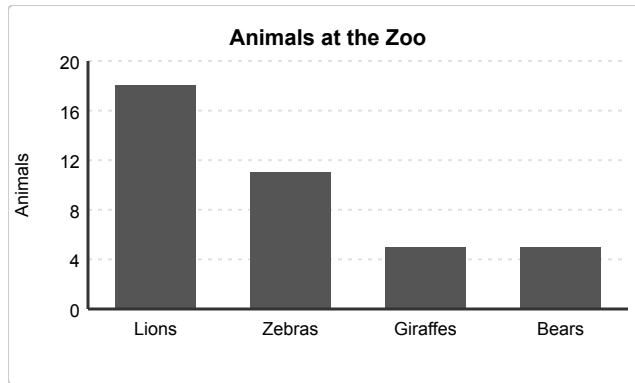

(4) What is the highest value shown in the graph?

- (A) 17 (B) 18 (C) 19 (D) 20

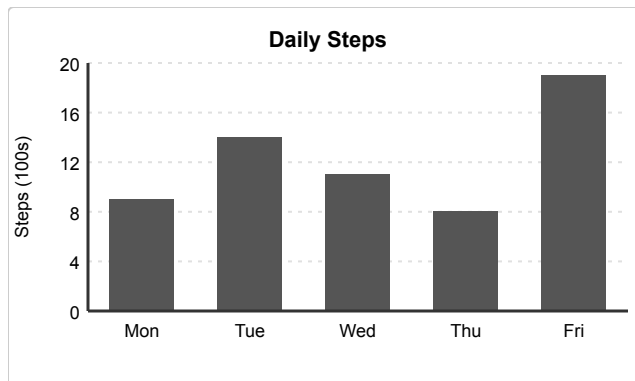

(5) What is the total of all animals shown?

- (A) 37 (B) 38 (C) 39 (D) 40

(6) How many steps (100s) do "Wed" and "Thu" have combined?

- (A) 17 (B) 18 (C) 19 (D) 20
