

## Addition: Complete Whole Thousands - Set A

Grade 5

Name: \_\_\_\_\_

Find the missing number to complete the whole thousand.

To find what completes a thousand, subtract the starting number from the target thousand.

(1)  $1,000 + \underline{\quad\quad\quad} = 2,000$

(2)  $\underline{\quad\quad\quad} + 3,000 = 6,000$

(3)  $\underline{\quad\quad\quad} + 4,000 = 9,000$

(4)  $\underline{\quad\quad\quad} + 2,000 = 4,000$

(5)  $4,000 + \underline{\quad\quad\quad} = 5,000$

(6)  $3,000 + \underline{\quad\quad\quad} = 5,000$

(7)  $\underline{\quad\quad\quad} + 4,000 = 6,000$

(8)  $3,000 + \underline{\quad\quad\quad} = 5,000$

(9)  $4,000 + \underline{\quad\quad\quad} = 6,000$

(10)  $\underline{\quad\quad\quad} + 4,000 = 5,000$

(11)  $\underline{\quad\quad\quad} + 4,000 = 6,000$

(12)  $3,000 + \underline{\quad\quad\quad} = 4,000$

(13)  $3,000 + \underline{\quad\quad\quad} = 7,000$

(14)  $\underline{\quad\quad\quad} + 3,000 = 6,000$

(15)  $\underline{\quad\quad\quad} + 2,000 = 3,000$

(16)  $\underline{\quad\quad\quad} + 5,000 = 8,000$

(17)  $3,000 + \underline{\quad\quad\quad} = 5,000$

(18)  $1,000 + \underline{\quad\quad\quad} = 2,000$

(19)  $\underline{\quad\quad\quad} + 3,000 = 6,000$

(20)  $4,000 + \underline{\quad\quad\quad} = 9,000$
