

Complete the Whole - Improper Fractions

Grade 5

Name: _____

Find the missing fraction.

Example: $\frac{1}{2} + \underline{\quad} = 2$ Ans: $\frac{3}{2}$ Solution: ($2 = \frac{4}{2}$, so $\frac{4}{2} - \frac{1}{2} = \frac{3}{2}$)

(1) $\frac{3}{8} + \underline{\quad} = 2$

(2) $\underline{\quad} + \frac{2}{3} = 5$

(3) $\underline{\quad} + \frac{1}{5} = 5$

(4) $\underline{\quad} + \frac{1}{3} = 3$

(5) $\underline{\quad} + \frac{7}{8} = 4$

(6) $\underline{\quad} + \frac{3}{4} = 3$

(7) $\underline{\quad} + \frac{5}{6} = 4$

(8) $\underline{\quad} + \frac{5}{8} = 5$

(9) $\underline{\quad} + \frac{5}{6} = 2$

(10) $\underline{\quad} + \frac{1}{4} = 4$

(11) $\underline{\quad} + \frac{2}{5} = 5$

(12) $\underline{\quad} + \frac{1}{3} = 4$
