

Missing Factors: Tables 2-10

Grade 5

Name: _____

Find the missing number in each multiplication sentence.

Example: $8 \times \underline{\quad} = 56 \rightarrow$ Think: 8 times what equals 56? Answer: 7

(1) $\underline{\quad} \times 12 = 72$

(2) $\underline{\quad} \times 11 = 55$

(3) $\underline{\quad} \times 11 = 110$

(4) $\underline{\quad} \times 10 = 50$

(5) $\underline{\quad} \times 9 = 63$

(6) $\underline{\quad} \times 12 = 24$

(7) $\underline{\quad} \times 6 = 12$

(8) $\underline{\quad} \times 3 = 30$

(9) $\underline{\quad} \times 4 = 12$

(10) $\underline{\quad} \times 2 = 6$

(11) $\underline{\quad} \times 12 = 48$

(12) $\underline{\quad} \times 8 = 64$

(13) $\underline{\quad} \times 7 = 14$

(14) $\underline{\quad} \times 2 = 18$

(15) $\underline{\quad} \times 8 = 16$

(16) $\underline{\quad} \times 4 = 16$

(17) $\underline{\quad} \times 6 = 18$

(18) $\underline{\quad} \times 6 = 24$

(19) $\underline{\quad} \times 8 = 48$

(20) $\underline{\quad} \times 6 = 54$
