

Reading Bar Graphs

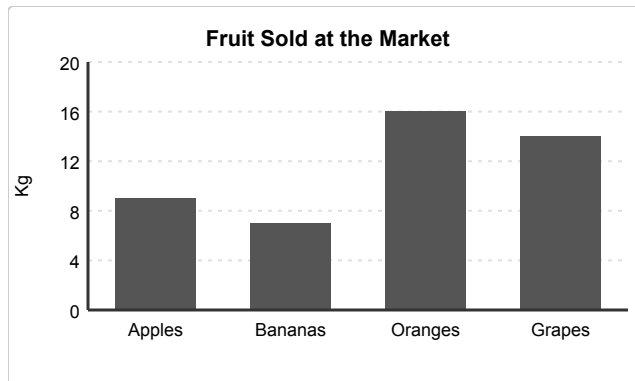

Grade 5

Name: _____

Use the bar graph to answer the questions.

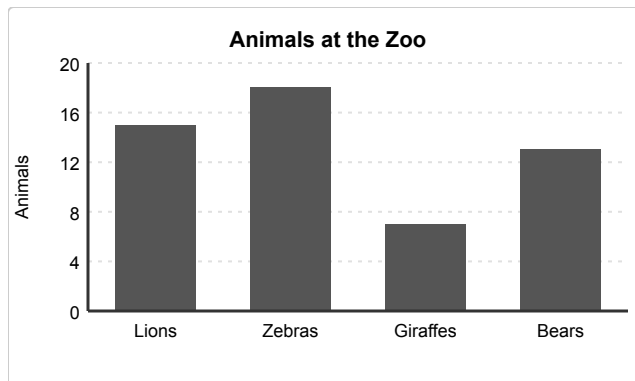

A bar graph uses bars to show data. The height of the bar tells you the number.

(1) According to the graph, how many kg does "Apples" have?

- (A) 7 (B) 8 (C) 9 (D) 10

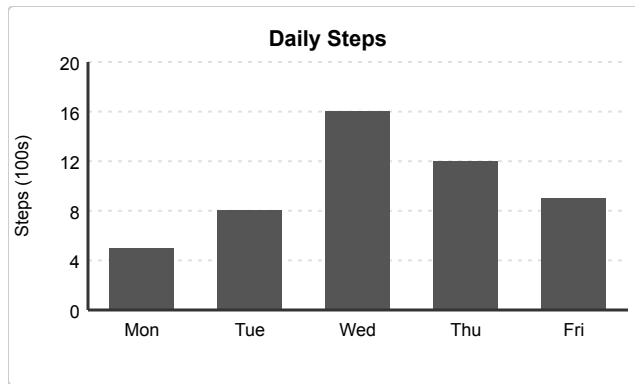

(2) According to the graph, how many animals does "Zebras" have?

- (A) 16 (B) 17 (C) 18 (D) 19

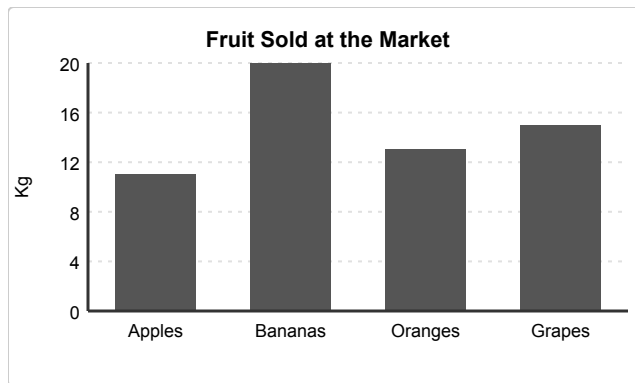

(3) How many more steps (100s) does the highest bar have than the lowest?

- (A) 9 (B) 10 (C) 11 (D) 12

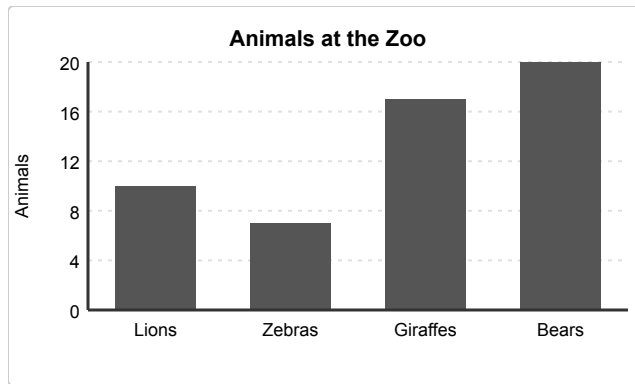

(4) What is the highest value shown in the graph?

- (A) 18 (B) 19 (C) 20 (D) 21

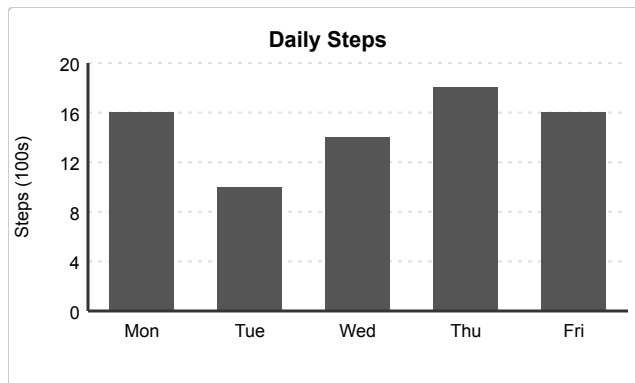

(5) What is the total of all animals shown?

- (A) 52 (B) 53 (C) 54 (D) 55

(6) How many steps (100s) do "Wed" and "Thu" have combined?

- (A) 30 (B) 31 (C) 32 (D) 33
