

Mental Division: Remainders (Divisor a Whole Hundred)

Grade 5

Name: _____

Write quotient and remainder as $r\#$.

Solve mentally. Write the quotient. If the division is not exact, write the remainder as $r\#$. Example: $69 \div 4 = 17 r1$.

Example: $910 \div 100 = 9 r10$ | $750 \div 200 = 3 r150$ | $940 \div 300 = 3 r40$

(1) $545 \div 100 =$ _____

(2) $789 \div 200 =$ _____

(3) $1025 \div 300 =$ _____

(4) $1234 \div 100 =$ _____

(5) $1567 \div 200 =$ _____

(6) $2001 \div 300 =$ _____

(7) $876 \div 100 =$ _____

(8) $1123 \div 200 =$ _____

(9) $1899 \div 300 =$ _____

(10) $2503 \div 100 =$ _____

(11) $2950 \div 200 =$ _____

(12) $3120 \div 300 =$ _____

(13) $618 \div 100 =$ _____

(14) $999 \div 200 =$ _____

(15) $1450 \div 300 =$ _____

(16) $1705 \div 100 =$ _____

(17) $2345 \div 200 =$ _____

(18) $2876 \div 300 =$ _____
