

Time Interval Subtraction (Elapsed Time)

Grade 5

Name: _____

Subtract time intervals, regrouping hours to minutes.

Example: 3 h 15 min – 50 min = 2 h 25 min

(1) 8 h 30 min – 3 h 00 min = _____

(2) 9 h 00 min – 4 h 30 min = _____

(3) 12 h 00 min – 5 h 30 min = _____

(4) 7 h 30 min – 2 h 30 min = _____

(5) A TV show runs for 3 hours 30 minutes. If 1 hour 00 minutes have already passed, how much time is left? _____

(6) A movie marathon is 5 hours 00 minutes long. If you have watched for 2 hours 30 minutes, how much time is remaining? _____

(7) $10 \text{ h } 00 \text{ min} - 3 \text{ h } 30 \text{ min} =$ _____

(8) A project requires 4 hours 30 minutes of work. If you have already worked for 1 hour 30 minutes, how much more time do you need? _____
