

# Adjectival Phrases

Grade 6

Name: \_\_\_\_\_

Circle the prepositional phrase that describes the noun.

Find the noun in the sentence.

Then look for a phrase starting with a preposition (in, on, with, about, near, under, beside...) that answers **which one?** or **what kind?** — that is the adjectival phrase.

**Example:** The dog with the spots ran fast. → Circle: **with the spots** (describes which dog)
