

Match Rainforest, Desert, Tundra, Ocean Biomes

Grade 3

Name: _____

Match each biome to its most important characteristic or example.

Earth has many major biomes — large regions defined by their climate, plants, and animals. Each biome has unique features that make it recognizable.

Match Biomes to Their Characteristics

COLUMN A

-  Tropical Rainforest
-  Desert
-  Tundra
-  Ocean

COLUMN B

- A** Large body of saltwater, home to fish, whales, and sharks.
- B** Very hot during the day, very cold at night, gets little rain.
- C** Very cold, ground is frozen most of the year, few trees.
- D** Hot and wet all year, many different plants and animals.
