

Sort Kelp, Deer & Mushroom: Ecosystem Roles

Grade 4

Name: _____

Sort each organism into the correct group: Producer, Consumer, or Decomposer.

Producers make their own food from sunlight (plants, algae). Consumers eat other organisms. Decomposers break down dead material and return nutrients to the soil.

Identify Organism Roles in Ecosystems

WORD BANK

Deer

Kelp

Mushroom

Grasshopper

Cactus

Earthworm

Tuna

Phytoplankton

Dung beetle

Producers

Consumers

Decomposers
